

Since over 60 years

## THE COUPLINGS SPECIALIST

Whatever your  
specifications, we have  
the right coupling.

**If not in our catalogues,  
we will industrialize  
it for you.**

## LAMELLAR COUPLINGS

Lamellar couplings in steel from 3 Nm to 294'300 Nm, with or without extension, also available in special execution. Complete choice of spare parts too as an alternative to other manufacturers.

## ELASTIC COUPLINGS FOR SEVERE MISALIGNMENTS

GFE elastic couplings in steel /rubber from 130 Nm to 13,000 Nm, with flexible rubber element for mining, cement applications etc.

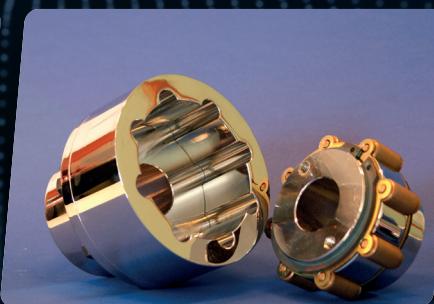

## RIGID COUPLINGS

GRFA rigid couplings in steel or cast iron from 48Nm to 8,900 Nm, with and without extension, also available in special execution.

## GEAR COUPLINGS

110 Nm gear couplings to 140'300 Nm, with or without extension, even in special execution.

## GEAR SELF-LUBRICATING COUPLINGS

Self-lubricating gear couplings for "clean" applications (without lubrication) from 286 Nm to 169'127 Nm with or without extension, also available in special execution.

## ELASTIC COUPLINGS IN CAST IRON AND SPARE PARTS

49 Nm elastic couplings in cast iron to 270,000 Nm, with or without extension, also available in special execution (with SAE flanges, etc.) Complete choice of spare parts too, as an alternative to other manufacturers.

## Why you will choose Ru-Steel

- 60+ years of 100% made in Italy know-how
- Economic competitiveness and sustainability
- Fast delivery
- No minimum order quantity
- In house design and production
- Compliant with API, CU-TR, ATEX certifications

## Couplings Balancing:

Frame and discover the accuracy that makes a difference.
